

KliMalasakit Online Document Updating System (KODUS) User Manual

Accessing KODUS

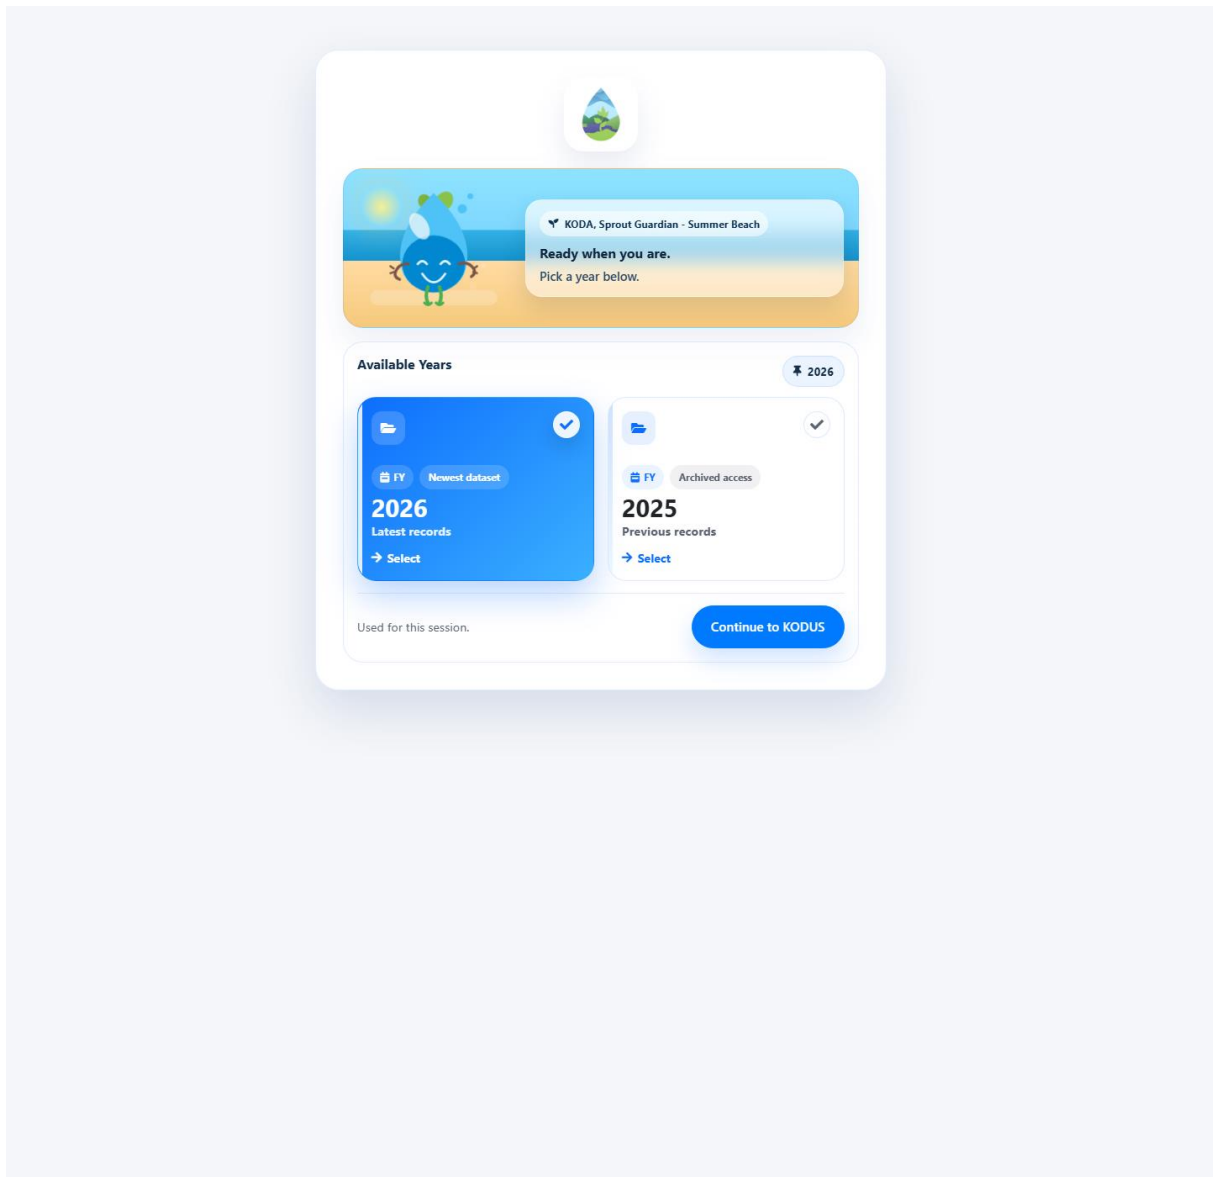

Use these steps to open the system and enter the selected workspace.

Step 1: Open the KODUS website and select the year to continue.

KODUS year selection page

Step 2: Click Continue to KODUS to open the selected workspace.

KODUS landing page

Administrator Guide

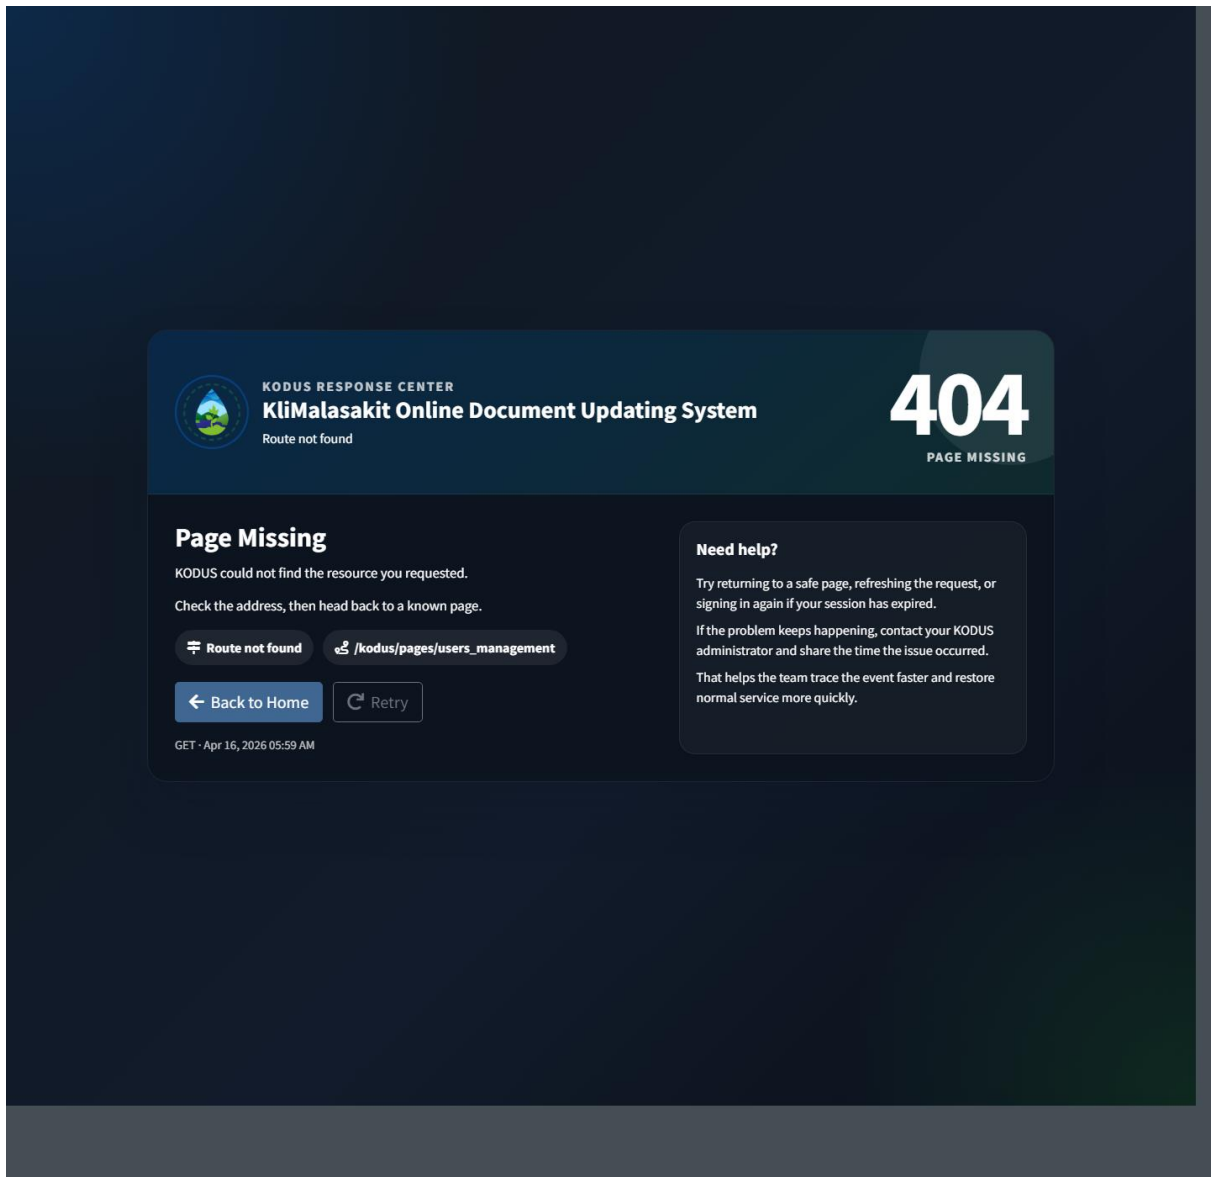

Primary tasks: full system control, user account management, notifications, security, recovery, and application settings.

Step 1: Log in and open the Dashboard to view system modules and administrative shortcuts.

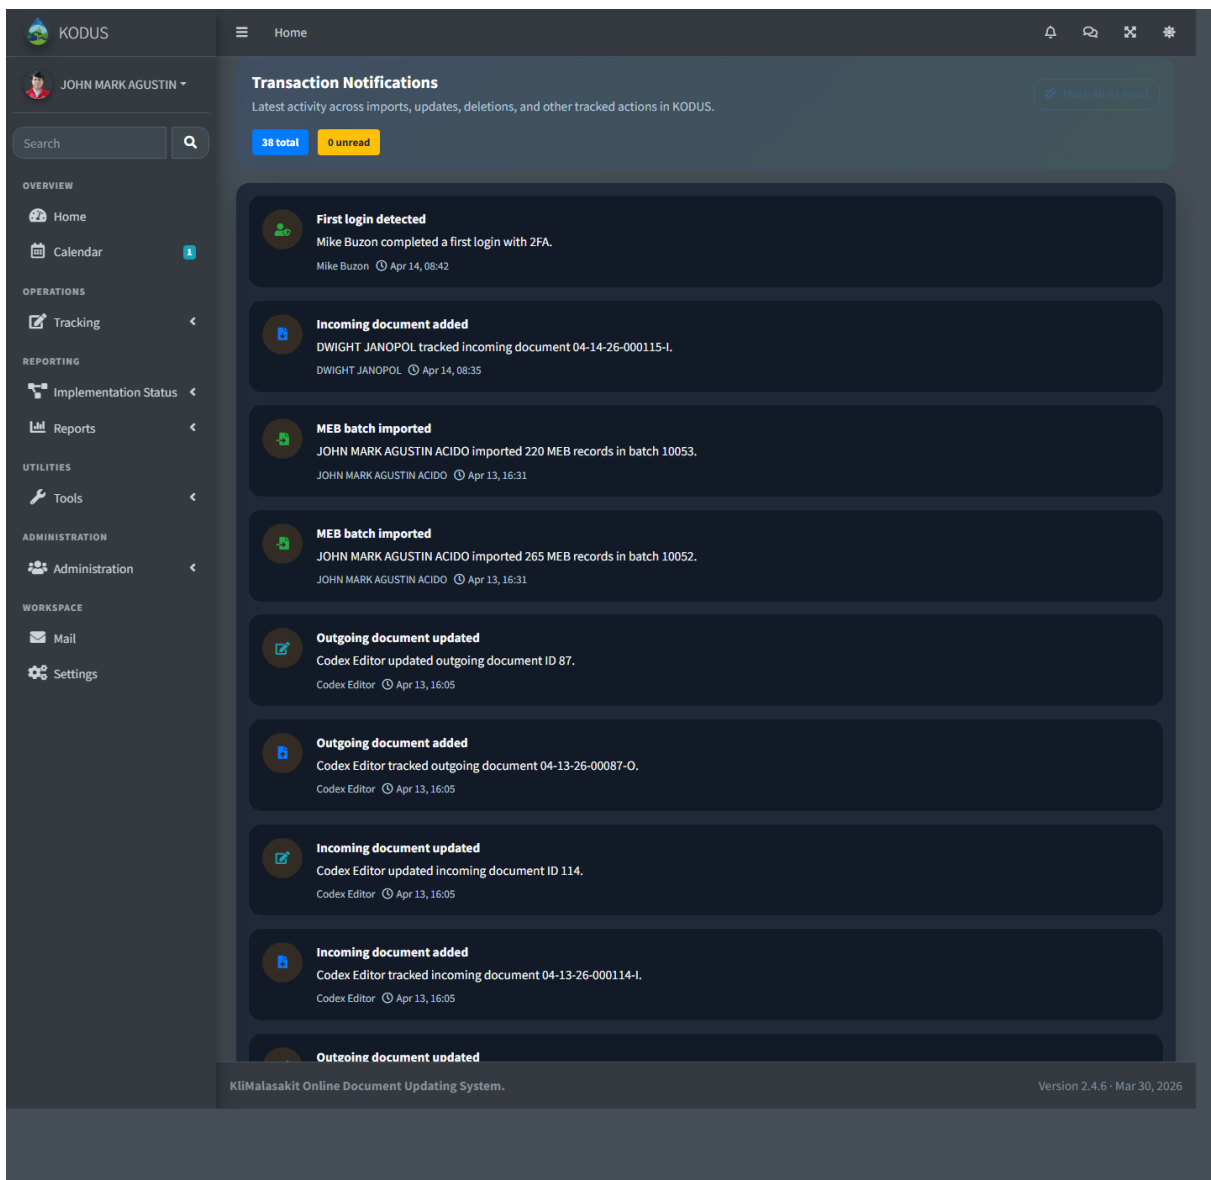

Administrator dashboard

Step 2: Click Users Management to view, classify, or update user accounts.

Users Management page

Step 3: Click Notifications to view recent alerts and updates.

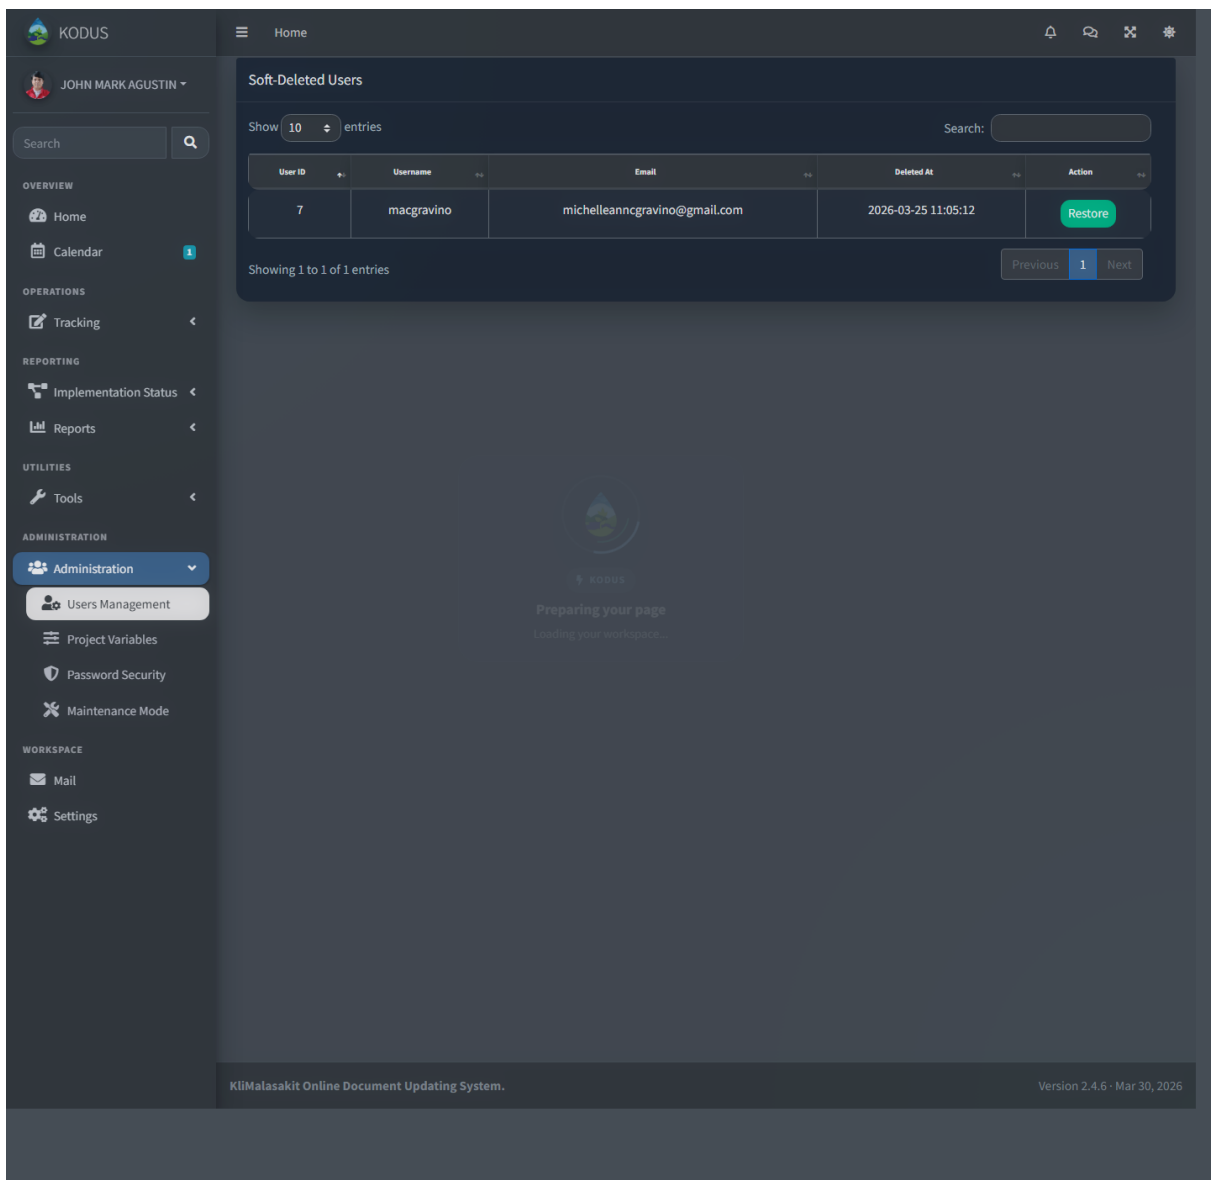

Notifications page

Step 4: Click Settings to update your profile, password, or two-factor authentication settings.

Step 5: Click **Restore Users** to recover deleted user accounts when needed.

Restore Users page

Step 6: Click Maintenance under Administration to manage service gate and application settings.

KODUS RESILIENCE CONTROLS

Service gate, branded error page, redirect timer, and audit logging

When enabled, non-admin users get a countdown warning first, then the KODUS 503 maintenance experience after the grace period ends while admins keep access.

Maintenance Disabled

Maintenance Settings

Enable maintenance mode

Warning message for logged-in non-admin users

Scheduled maintenance will begin soon. Please save or complete your current work before the countdown ends.

This appears in the non-blocking countdown banner so users can finish or save active work before maintenance begins.

Grace period before maintenance starts

300

Set to '0' to activate maintenance immediately. Otherwise, logged-in non-admin users get this many seconds to finish their work first.

User-facing maintenance message

Routine maintenance is underway to keep KODUS stable, secure, and ready for the next working session.

This appears on the branded 503 page and is also included in the audit log details.

Auto-redirect countdown on maintenance page

60

Set to '0' to keep visitors on the maintenance page without an automatic redirect.

Changes are logged to `audit\_logs` automatically.

Save Maintenance Settings

Live Preview

503 PREVIEW

Service Unavailable

Routine maintenance is underway to keep KODUS stable, secure, and ready for the next working session.

Countdown warning: Scheduled maintenance will begin soon. Please save or complete your current work before the countdown ends.

Warning window: 300s

Redirect countdown: 60s

Fiscal Year 2026

Target planning for LAWA and BINHI

Add Target

Import an Excel file with these exact headers: PROVINCE, MUNICIPALITY, BARANGAY, PUROK, PROJECT NAME, PROJECT TYPE, PROJECT CLASSIFICATION, LAWA TARGET, BINHI TARGET, CAPBUILD TARGET, COMMUNITY ACTION PLAN TARGET, TARGET PARTNER-BENEFICIARIES. Each purok must line up with its matching project name, project type, and classification. For multiple entries in one row, separate each column with || in the same order. Target Partner-Beneficiaries should be the barangay's beneficiary target.
