Accomplishment Report Template

Title of Activity/Plan: 4Ps Regional Convergence Plan
Coverage Period: January- September 2025
Prepared by: DRMD

Part I. Overview:

Risk Resiliency Program through Cash-for-Training and Work (RRP-CFTW) is one of several initiatives by the Department of Social Welfare and Development (DSWD) designed to enhance the resilience of natural ecosystems and strengthen the adaptive capacity of vulnerable groups and communities to both short-term and long-term risks. Over the past five years, RRP-CFTW has served 67 municipalities and 6 cities in the Caraga Region, benefiting a total of 312,783 individuals through an investment of ₱836,984,000.00. Since its launch in 2018, the program has undergone continuous refinement to improve its implementation year after year.

With the issuance of a new guidance memorandum by DSWD Secretary Rex Gatchalian on January 19, 2024, followed by the release of Guidance Notes dated April 28, 2025, issued in connection with the implementation of Project LAWA at BINHI during the May 12, 2025 National Election period, the program has shifted its focus toward proactive interventions and sustainable solutions aimed at combating hunger, alleviating poverty, and reducing economic vulnerability in communities.

Project LAWA at BINHI – Local Adaptation to Water Access and Breaking Insufficiency through Nutritious Harvest for the Impoverished – is the new initiative under the DSWD's Risk Resiliency Program through Cash-for-Training and Work (RRP-CFTW) for CY 2024 which supports the government's efforts in addressing food insecurity and water scarcity, issues exacerbated by climate change and disasters.

Now in its second year, the Caraga Region received a budget allocation of ₱62,515,477.44 for Fiscal Year 2025. Of this amount, ₱53,900,000.00 is designated as cash assistance for 7,000 partner beneficiaries, while ₱8,615,477.44 is allocated for the administrative costs of the Regional Program Management Unit.

The program has been implemented across 84 barangays in 26 municipalities within the provinces of Agusan del Norte, Agusan del Sur, Dinagat Islands, Surigao del Norte, and Surigao del Sur. These municipalities were identified as among the most affected by El Niño, according to the Climate Outlook of DOST-PAGASA, and have the highest number of poor families based on the National Household Targeting System for Poverty Reduction (NHTS-PR) Listahanan 3 database.
Throughout its implementation, Project LAWA at BINHI has not only provided temporary employment and skills development to 7,000 individuals through cash-for-work and cash-for-training activities, delivered in partnership with DSWD, barangay, municipal, and provincial local government units (LGUs), but also established a strong platform for engagement and collaboration. This approach fosters accountability and community ownership. By promoting gender equality and inclusivity, the project has significantly improved water systems and infrastructure, ultimately enhancing agricultural productivity for entire communities.

Part II. Tabular Accomplishment vs. Plan:

Interventions/ Projects	Targets (No. of HHs targeted for interventions for 2025)	Accomplishments (Q1-Q3 2025)	% of Target Achieved	Responsible Office/ Person	Remarks
Risk Resiliency Program through Cash-for-Training and Work (RRP-CFTW)'s Project LAWA at BINHI	2,800	2,844	101.57%	DRMD-RRP	Achieved

Part III. Issues and Challenges:

None.

Part IV. Recommendations/Next Steps:

1. *Streamlined Beneficiary Identification, Validation, and Endorsement.*
   The potential list of partner beneficiaries shall be routed through the 4Ps Municipal Link for validation and countersignature prior to endorsement by the LSWDO for the Mayor's certification and approval. This process aims to minimize duplication of efforts, ensure data integrity, and expedite the validation and approval process at the regional level.
2. *Designation of RPMO Focal Personnel for Validation.*
   To ensure accountability, uphold data integrity, strengthen data security, and standardize validation mechanisms for faster processing and more accurate reporting, the RPMO of 4Ps is requested to designate a focal person through the issuance of a Regional Special Order (RSO). This focal person shall oversee name-matching and revalidation activities prior to the Regional Director's approval of the masterlist and shall provide results within three (3) days from receipt of requests.
3. *Continued LGU Prioritization of 4Ps Beneficiaries.*
   In line with existing program guidance, Local Government Units (LGUs) shall continue prioritizing 4Ps households as partner beneficiaries by maintaining clear criteria, such as allocating at least fifty-one percent (51%) of the total potential partner beneficiaries to 4Ps families. This ongoing prioritization upholds compliance with national directives and ensures that 4Ps beneficiaries maintain equitable access to Project LAWA at BINHI interventions.
4. *Enhanced Coordination and Convergence Mechanisms.*
   Ensure the regular participation of DRMD in 4Ps Regional Convergence Committee meetings to present program concerns, resolve operational issues, and promote the equitable and well-coordinated delivery of support and services.
