FEEDBACK REPORT

NAME:	Rachelle B. Pacot
POSITION AND OFFICE:	Project Development Officer I

TYPE OF LEARNING AND DEVELOPMENT INTERVENTION ATTENDED:	/ Workshop ☐ Conference ☐ Seminar ☐ Training ☐ Other:
TITLE:	Capacity Building Activity of Risk Resiliency Program-Climate Change and Mitigation Regional and Provincial Focal
DATE AND VENUE:	August 4-8, 2025 at Pearlmont Hotel, Cagayan de Oro City
CONDUCTED BY:	Disaster Response Management Bureau in collaboration with DSWD FO X
REGISTRATION FEE: *(IF APPLICABLE)*	None
DATE OF SUBMISSION:	September 3, 2025

A. Significant Learning and Its Application to the Workplace

1. **Give at least three significant learnings or insights that you have gained through the learning and development intervention provided.**

a. The Capacity Building Activity of Risk Resiliency Program on Climate Change Adaptation and Mitigation through Project LAWA at BINHI helped focal persons strengthen implementations on projects under RRP-CCAM. It also provided an opportunity in levelling off reporting formats for the LAWA at BINHI project output.
b. The workshop highlighted the Monitoring, Evaluation and Reporting (MER) tool to be unified and incorporate accurate and more detailed indicator and reporting of on-ground implementation.
c. The learning visit held at Purok 4, Barangay Alanib, Lantapan, Bukidnon served as a model of how the community with the assistance of Private Sector, Local Government Unit and National Agencies can create projects with impact. The engagement provided insights on how a project can have long-term effect on the community through proper alignment of local plans and incorporating it with the goals of Project LAWA at BINHI. The participant

also observed how assistance, like the Private Sector (Unifrutti) and the LGU, can help the community to build a strong group even after Project LAWA at BINHI ends.

2. **Using the table below, specify how you would apply such learning in your current job functions.**

SPECIFIC ACTIONS	RESOURCES NEEDED	TARGET DATE
Integrate the updated Monitoring, Evaluation and Reporting Tool in the next implementation phase. Conduct knowledge sharing to technical working group in order for them to provide data used in reporting which is aligned in new MER tool)	Enhanced MER tool	January-December 2026
Conduct knowledge sharing session with the technical working group to integrate experiences learned during site visit. This will help in the next implementation phase and will help it align future projects with the goals of Project LAWA at BINHI	PowerPoint Presentation	January-December 2026

3. **Are there any technological infrastructures or automated systems presented? If yes, would you recommend the same to be transferred or adapted in DSWD? State the Office, Division, Section, or Unit (ODSU) which can best utilize the same. If none, tick the box.**

/ Yes

The improved Monitoring, Evaluation and Reporting (MER) Tool was introduced during the capacity building. The MER tool provided will make updating of data in project sites, easier and more convenient to navigate.

I will recommend this to be adapted in the department, most especially to Risk Resiliency Program implementers, and other offices who doesn't have a unified tool for monitoring purposes. This will make reporting and monitoring easier and will provided more detailed information to projects implemented.

☐ No

4. **Implication of the training/LDI to existing DSWD policy (administrative, program, recommended policy, revised policy, etc.).**

The Capacity Building on the improved MER Tool will help implementers monitor projects implemented, creating more accurate and efficient data which are necessary to track progress of projects. The MER tool will also serve as a guide during reporting and evaluation of projects.

5. **What is your plan for your re-echoing or feedback session?**

SPECIFIC ACTIONS	RESOURCES NEEDED	TARGET DATE
Knowledge sharing with P/MTWG	Enhanced MER Tool	January-December 2026
Inclusion of technical assistance on navigating MER Tool	Enhanced MER Tool	January-December 2026

B. Overall Rating of the Intervention

1. **What is your overall rating on the effectiveness of the learning intervention attended?**

   ☐ Poor ☐ Fair ☐ Good ☐ Very Good / Excellent

   Comment(s): None

2. **Would you recommend this activity? Briefly discuss the reason behind your choice. If yes, please specify the ODSU(s) who will best benefit from this learning and development intervention. If no, please provide suggestions.**

   / Yes

   I would high recommend the workshop on improved MER Tool since it has been part of the challenges of the implementors on having a unified reporting tool. The capacity building also addressed important topics such as selection of beneficiaries and identification of number of LAWA at BINHI sites and. The learning visit in Brgy. Alanib, Lantapan, Bukidnon also provided insights on how collaboration from the partner beneficiaries, private group to government agencies can create projects with long lasting impact and communities which will benefit it. Overall, the capacity building will greatly benefit the Project LAWA at BINHI implementors by equipping them vital skills and knowledge which will be used during future implementations.

   ☐ No

3. **Other comments/recommendations:**

I recommend that there will be an allocated time to interact more on communities and conduct thorough focus group discussion with them to fully address challenges encountered during implementation.
