# FEEDBACK REPORT

| | |
|---|---|
| **NAME:** | **KARIN LOUISE Q. NIETES** |
| **POSITION AND OFFICE:** | **Project Development Officer II** |

| | |
|---|---|
| **TYPE OF LEARNING AND DEVELOPMENT INTERVENTION ATTENDED:** | ✓ **Workshop** ☐ **Conference** ☐ **Seminar /Training** ☐ **Other:** |
| **TITLE:** | Attend the Capacity Building Activity of RRP-CCAM for Regional and Provincial Focals |
| **DATE AND VENUE:** | August 4-8,2025 in Cagayan de Oro City |
| **CONDUCTED BY:** | DISASTER RESPONSE MANAGEMENT BUREAU(DRMB) IN COLLABORATION WITH DSWD FO X |
| **REGISTRATION FEE:** *(IF APPLICABLE)* | NONE |
| **DATE OF SUBMISSION:** | August 18, 2025 |

## A. Significant Learning and Its Application to the Workplace

1. **Give at least three significant learnings or insights that you have gained through the learning and development intervention provided.**

   a) The Capacity Building Activity under the Risk Resiliency Program for Climate Change Adaptation and Mitigation (RRP-CCAM) aims to establish a unified Monitoring, Evaluation, and Reporting (MER) Tool for use by regional and provincial focal persons in the implementation of Project LAWA at BINHI. This standardized tool will enable the Central Office (CO) to efficiently monitor the progress of each implementing Field Office, including the classification of partner beneficiaries. Additionally, it automatically generates user-friendly summaries such as charts and tables making reporting faster, clearer, and more data-driven.

   b) The learning visit to Purok 4, Barangay Lantapan, Bukidnon highlighted the innovative farming practices of the community and the Talaandig Indigenous Peoples through Project LAWA at BINHI. The group has successfully cultivated 1.5 hectares of land, primarily growing upland vegetables suited to the area's terrain. They have also established a tilapia aquaculture project, aiming to diversify local food sources and create additional livelihood opportunities for the community. The visit provided participants with valuable insights into effective project implementation, emphasizing the importance of collaboration among key stakeholders, including the local government unit (LGU), partner beneficiaries, and

UNIFRUTTI Co., a private company that generously lent the land and supplied fertilizers as part of their corporate social responsibility (CSR) efforts. Additionally, partner stakeholders provided technical assistance during the first cropping cycle to ease the workload of the beneficiaries.

c) The learning visit really helped me reflect on how I approach the design, planning, and implementation of long-term resilience-building initiatives. It reminded me of the importance of making sure that projects are not just well-planned, but also aligned with local priorities and developed in collaboration with the community.

2. **Using the table below, specify how you would apply such learning in your current job functions.**

| SPECIFIC ACTIONS | RESOURCES NEEDED | TARGET DATE |
|---|---|---|
| Apply the new and enhanced MER Tool and use it in the next implementation of the project | Enhanced MER Tool, Computer, Internet Connection | January-December 2026 |
| Conduct a collaborative discussion of the enhanced MER with the co-implementer | Enhanced MER Tool, Computer, Internet Connection, venue | August -December 2025 |

3. **Are there any technological infrastructures or automated systems presented? If yes, would you recommend the same to be transferred or adapted in DSWD? State the Office, Division, Section, or Unit (ODSU) which can best utilize the same. If none, tick the box.**

✓ **Yes**

The enhanced Monitoring, Evaluation and Reporting (MER) Tool for the RRP CCAM presented during the Capacity Building Activity serves as a guide and standardized data management system for all implementer of the Cash-for-Work and Training modality.

I would like to recommend this system to be adapted by DSWD especially in the programs with the same eligibility criteria in choosing beneficiaries and with the similar implementation program so that there will be a unified system and reporting and monitoring tool to be used.

4. **Implication of the training/LDI to existing DSWD policy (administrative, program, recommended policy, revised policy, etc.).**

The LDI on Capacity Building Activity of Risk Resiliency Program Climate Change Adaptation and Mitigation (RRP-CCAM) Regional and Provincial Focal implies a need for DSWD to enhance the tools needed for the smooth implementation of the project

and improve its policies and guidelines. The trained staffs may emphasize data collection and analysis, leading to evidence -based program improvements.

LDI insights can contribute to the revision of existing policies to align with current social realities and emerging needs. Revised policies can reflect a greater emphasis on inclusivity, ensuring that DSWD programs are accessible and beneficial to all segments of the population.

5. **What is your plan for your re-echoing or feedback session?**

| SPECIFIC ACTIONS | RESOURCES NEEDED | TARGET DATE |
|---|---|---|
| Conduct Assessment re effectiveness of the Enhanced MER Tool with the Implementers and TWGs | Laptop, Projector, and White Screen, PowerPoint Presentation | January-December 2026 |
| Conduct coordination meeting the MLGU Focals and Technical Working Group and discuss the new and Enhanced Monitoring, Evaluation and Reporting Tool | Laptop, Projector, and White Screen, PowerPoint Presentation, Venue | Once the tool is available |

**B. Overall Rating of the Intervention**

1. **What is your overall rating on the effectiveness of the learning intervention attended?**

**☐ Poor ☐ Fair ☐ Good / Very Good ☐ Excellent**

**Comment(s):**

Overall, I rate the effectiveness of the learning intervention as Very Good. The Capacity Building Activity for RRP CCAM Regional and Provincial Focals has significantly enhanced our capabilities as implementers in the field and acquired other strategies that could be adapted in the Field Office.

2. **Would you recommend this activity? Briefly discuss the reason behind your choice. If yes, please specify the ODSU(s) who will best benefit from this learning and development intervention. If no, please provide suggestions.**

**/ Yes**

Yes, I would recommend this activity. It fosters critical thinking and collaboration which are crucial for the ODSU. Specifically, Disaster Response and Rehabilitation Section-Risk Resiliency Program (DRRS-RRP) team would greatly benefit as it equips them with the tools to design more effective programs.

3. **Other comments/recommendations:**

The overall activity has pushed me to put people and partners at the center of the planning process, really taking the time to listen, consult, and build consensus. By doing so, I was able to see how much more effective and relevant our work can be when it's grounded in the actual needs and aspirations of those we aim to support. The experience also helped me appreciate the value of inclusive planning, where everyone, from local stakeholders to partner beneficiaries, has a voice in shaping the direction of the project.
