|---|---|---|---|
| | Mitigation, and Disaster Risk Reduction (CCAM-DRR); officials from DENR satellite and provincial offices; and staff from the provincial governments of Surigao del Norte, Surigao del Sur, and the Province of Dinagat Islands. These provinces have been identified as climate-vulnerable and are prioritized by the DENR for investment programming and climate-resilience budgeting.<br><br>The meeting was presided over by DENR Caraga, with support from the RRP-RTWG Secretariat from the Divisions of Conservation and Development, Licenses, Patents and Deeds, and Planning and Management of DENR Caraga. It covered the following agenda items:<br><br>1. Presentation of the Approved Resolution Creating the RRP-RTWG<br>2. Presentation of the Updated Investment Portfolio for Risk Resilience (IPRR) of the PLGU of Surigao del Sur for Partner Agency Comments<br>3. Open Forum<br>4. Target Schedules for IPRR Updating in Surigao del Norte and Dinagat Islands for RRP-RTWG Review<br>5. Discussion on Possible Activities for the Upcoming Climate Change Consciousness Week Celebration<br>6. Presentation of Summary of Agreements and Ways Forward | 2. Presentation of the Updated Investment Portfolio for Risk Resilience (IPRR) of the PLGU of Surigao del Sur for Partner Agency Comments | • Within the context of the DENR, IPRRs are investment portfolios designed to enhance climate and disaster resilience in vulnerable areas through specific resilience measures under the RRP. As one of the priority provinces under CCAM-DRR, Surigao del Sur updated its IPRR, which was due for updating in 2023.<br>• Surigao del Sur collaborated with concerned offices and LGUs to integrate climate change and disaster risk reduction into their development plans and budgets, ensuring that the identified Programs, Projects, and Activities (PPAs) tagged under the RRP are reflected in their IPRR.<br>• The undersigned, together with other members, recommended the following actions, which formed part of the RRP-RTWG's summary of agreements:<br>1. **Revisit local plans.** Review approved Local Climate Change Action Plan (LCCAP), Provincial Development and Physical Framework Plan (PDPFP), Climate and Disaster Risk Assessment (CDRA), and other local plans within September 2025 to ensure that key resilience gaps and issues are aligned and listed in the IPRR.<br>2. **Specify target areas.** All areas identified as "province-wide" in the IPRR should be clearly specified. |

| | | | |
|---|---|---|---|
| | | | 3. **Include RRP-tagged PPAs of partner agencies.** Ensure that all Programs, Projects, and Activities (PPAs) tagged or enrolled under the RRP menu of activities by partner agencies are reflected in the IPRR. The DENR Caraga RRP-RTWG Secretariat will send communications to partner agencies within September 2025 for this purpose.<br>4. **Identify committed funding sources.** Determine committed sources of funding at the LGU level for sustainability of projects/programs, rather than relying solely on possible NGA sources, to serve as a contingency when proposed funds are not approved.<br>5. **Submit revised IPRR.** The revised IPRR will be submitted to DENR Caraga by the first week of November 2025. |
| | | 3. Target Schedules for IPRR Updating in Surigao del Norte and Dinagat Islands for RRP-RTWG Review | • The Provincial Government of Dinagat Islands (PLGU-Dinagat Islands) will update its IPRR on September 22–23, 2025, while the Provincial Government of Surigao del Norte will update its IPRR on September 29–30, 2025.<br>• Updates will be conducted within their respective jurisdictions, preferably at the PLGU Governor's Office and the PENRO Conference Rooms so that concerned staff from each office can |

| | | | |
|---|---|---|---|
| | | | participate. This approach is preferred over holding the sessions at DENR Regional Office, as past experience shows higher attendance when activities are conducted within the provincial offices' areas of jurisdiction.<br>• The updating sessions will take place prior to the review of the RRP-RTWG, which will be scheduled or identified soon by DENR Caraga. |
| | | 4. Discussion on Possible Activities for the Upcoming Climate Change Consciousness Week Celebration | • The PLGUs identified tree-planting activities to be conducted between November 19 and 25, 2025.<br>• Partner agencies will be informed in advance should their presence or participation be required. |
| | | 5. Presentation of Summary of Agreements and Ways Forward | • A similar activity will be conducted soon for the IPRRs of the PLGUs of the Province of Dinagat Islands and Surigao del Norte once their updates are completed in September 2025, likely by October 2025.<br>• A quarterly meeting is scheduled for the RRP-RTWG, forming part of its roles and responsibilities as stated in the approved resolution establishing the TWG.<br>• The DENR emphasized the need for the continued support of all members during the planning phase of the IPRR update through the RRP-RTWG. This collaborative approach aimed to ensure that the plan, including the tagged RRP components in the IPRR was comprehensive, aligned with |

| | | | |
|---|---|---|---|
| | | | national objectives, feasible, and well-positioned for successful implementation. Such proactive engagement was agreed to help minimize potential conflicts, delays, and inefficiencies during the later stages of project implementation. |

For your information and appropriate action.

Respectfully yours,

**RUTCHEL R. MOLINO**
Project Development Officer III
Risk Resiliency Program
