II. Rationale

Aligned with the Department of Social Welfare and Development's (DSWD) mandate to reduce poverty and strengthen the resilience of vulnerable communities, the Department continues to implement responsive and adaptive social protection programs that address the impacts of climate change, natural hazards, and socio-economic vulnerabilities.

Under the Risk Resiliency Program through Cash-for-Training and Work (RRP-CFTW), Project LAWA at BINHI (Local Adaptation to Water Access and Breaking Insufficiency Through Nutritious Harvest for the Impoverished) serves as a strategic intervention to promote water sufficiency, food security, and community-based resilience through capacity-building and climate-adaptive livelihood initiatives.

With the updated program guidelines, enhanced Cash-for-Training (CFT) modules, and refined implementation parameters for CY 2026, there is a critical need to ensure policy alignment, technical standardization, and operational readiness across implementing units.

In this regard, the visit of the Director IV of the Disaster Response Management Bureau (DRMB) and Special Secretary for Special Projects and Program Focal for RRP-CFTW provides an opportunity to deliver technical guidance, validate provincial and municipal proposals, and strengthen convergence mechanisms with partner agencies. The activity will serve as a structured platform to orient implementers on updated guidelines, refine Project Proposals and allocation breakdowns, establish the Monitoring, Evaluation, and Reporting (MER) Baseline Data Framework with resource mapping, and develop detailed Implementation Plans. These outputs are necessary prerequisites prior to the commencement of actual program implementation to ensure accountability, efficient resource utilization, and alignment with national strategic directions.

Through this initiative, DSWD Field Office Caraga aims to enhance implementation coherence, strengthen inter-agency collaboration, and ensure that Project LAWA at BINHI for CY 2026 is executed in a results-driven, transparent, and technically sound manner.

III. Legal Bases

RRP-CFTW's project LAWA at BINHI was part of the many programs of the DSWD which helps achieve its primary mandate to develop, implement, and coordinate social protection and poverty reduction solutions for and with the poor, vulnerable and disadvantaged.
