II. BRIEF BACKGROUND

Project Site : Brgy. Mandus, Lingig, Surigao del Sur
No. of Beneficiaries :175
Project Name :
Project LAWA - Construction of Small Farm Reservoir and Tilapia Farming
Project BINHI - Community Vegetable Gardening and Fruit Tree Growing

As a pioneer site of Project LAWA at BINHI in Caraga Region in 2024, Lingig, Surigao del Sur demonstrated strong LGU support and active community participation. A total of 450 partner beneficiaries were engaged in 2024 across two barangays, followed by 350 more in 2025 with the inclusion of two additional barangays. These milestones highlight the project's positive impact on resilience-building. The LGU's dedicated budget allocation and residents' cooperation further reflect the program's effectiveness and sustainability.

In 2025, Mandus became one of the two new recipient barangays in Lingig, Surigao del Sur. Located at the province's southernmost tip bordering Davao Oriental, Lingig has a tropical rainforest climate, a population of 35,142 (2020 Census), and covers 305.17 square kilometers, 6.19% of the province's land area. Under Project LAWA at BINHI, Mandus benefited 175 partner beneficiaries who collectively received ₱1,347,500 in cash assistance.

III. PROJECT IMPLEMENTATION

Project LAWA at BINHI in Barangay Mandus was launched on March 4, 2025 and officially turned over on March 26, 2025. The payout for cash assistance, corresponding to the partner beneficiaries' 20-day participation in cash-for-training and cash-for-work activities, was successfully conducted on April 22, 2025, based on the daily minimum wage rate of ₱385.

To ensure long-term maintenance and sustainability, the partner-beneficiaries organized the "Samahan ng Tilapia, Fruits and Vegetables Growers ng Mandus Tungo sa Pagbabago Farmer's Association." This association also serves as a channel for accessing support from other government agencies, fostering the project's further growth and development.
