Dear Sir Ladaga,

Greetings of peace!

In partnership with the Department of Social Welfare and Development (DSWD) for the implementation of the Project LAWA at BINHI Program, we respectfully request assistance from your good office for the provision of fruit tree seedlings, specifically one hundred (100) Rambutan seedlings and one hundred (100) Lanzones seedlings.

These seedlings will be planted in Barangay La Fraternidad and Barangay Tagpangahoy, the identified beneficiary communities for this year's RRP Project LAWA at BINHI. The planting initiative aims to promote environmental sustainability, strengthen climate resilience, and provide additional livelihood opportunities for the residents of the said barangays.

We believe that this initiative aligns with the Department of Environment and Natural Resources' commitment to environmental protection, reforestation, and sustainable community development. In this regard, we sincerely hope for your favorable consideration of our request.

Thank you very much for your continued support and assistance. We look forward to your positive response.

Respectfully yours,

WINNIE ROSE D. SELADES
